Alvin Chai

Grace Sabando

The objective of this course are for the participants to :

- Observe a full “live” case where a clinical instructor predictably prepare and deliver a smile make-over case in three day
- Understand the preparation design and protocols
- Learn to comprehensively diagnose and treatment plan for patients
- Cases to avoid: Identifying the different signs and symptoms
- How to transfer the occlusion of the preparation accurately to the lab
- Harnessing technology and material advancement in CAD/CAM and aesthetic dentistry
- Understand the principles of the ideal smile design
- Photography for a successful case from presentation to finishing

Registration fee : \$4500.00
